Institute of  
Technology**

Arun Saigal is the Co-founder and CEO of Thunkable, a Y Combinator-backed startup where anyone can build their own mobile apps. Thunkable is based on Arun's work with MIT App Inventor, which he worked on during his SB and MEng at MIT. Recently named to Forbes 30 Under 30, Arun has held a variety of leading roles at technology companies, including Quizlet, Khan Academy, Aspiring Minds, and Google. Outside of the office, Arun conducts orchestras and plays viola and mridangam in several SF-based music groups.
