# WHY ?

## ENTREPRENEURSHIP IN SCHOOL

Studies show that exposure to innovation and entrepreneurship during childhood has significant effects on children's propensities to become inventors or entrepreneurs by up to 60%.

Early Entrepreneurship —————> Future Leaders

**Future Orientation**

**Risk Taking**

**Creativity &  
Innovation**

**Critical Thinking &  
Problem Solving**

**Communication &  
Problem Solving**

**Opportunity  
Recognition**

**Initiative & Self-  
Reliance**

**Flexibility &  
Adaptability**

**WHY ?**

# EARLY ENTREPRENEUR PROGRAM

Early Entrepreneur program is more than learning to start your business. It's creating a growth oriented mindset and skill.

Entrepreneurship = Developing skillset for future

**CREATIVITY**

**NEGOTIATION**

**COMMUNICATION**

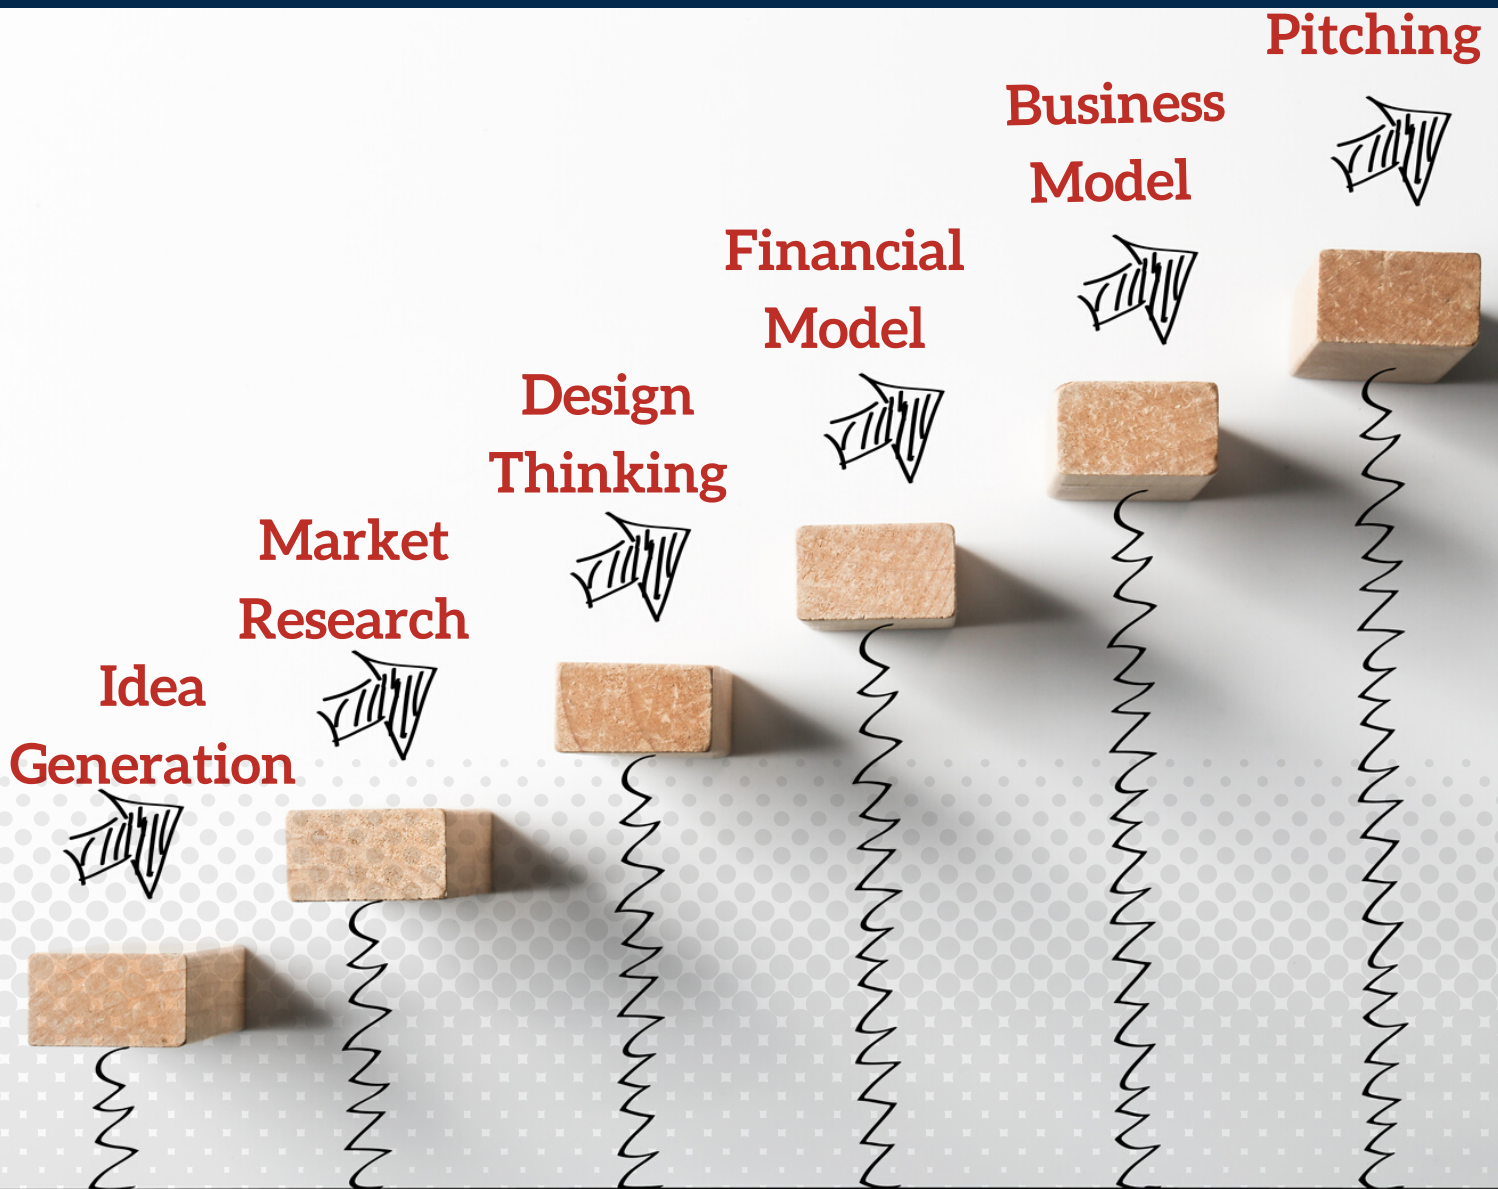

**CRITICAL THINKING**

**PROBLEM SOLVING**

**WHY ?**

# BUILD REAL BUSINESSES WHILE IN SCHOOL

Students leave the program having completed a business model canvas, competitive analysis, financial model, minimum viable product and a pitch deck.

# WHAT ?

## CURRICULUM OVERVIEW

### Day 1: Idea Generation

Mentors share their experience of what ignited their start-up idea and how it came to be. Under this module, students learn to stimulate their creativity, understand the process of coming up with new ideas, and learn how to get inspiration from what others are doing. Students are given tools and techniques to gain an innovative mindset.

### Day 2: Market Research

Mentors guide students through the process of market research for their idea: what's currently being used in the market, who the top competitors are, and what needs to be done to turn an idea into a reality. Students learn techniques to test, refine and select their idea.

# WHAT ?

## CURRICULUM OVERVIEW

### Day 3: Design Thinking

Students learn the process of creative thinking, logical thinking, and experimentation. Mentors share strategies adopted by them for testing and prototyping in order to achieve the perfect product/service for the end-user.

### Day 4: Business Model

Once the student has developed an idea of the product or service startup, they learn what a business blueprint is and how to draw one for their start-up. They delve into information like target markets, competition, anticipated expenses, pricing, and other aspects of a business canvas.

# WHAT ?

## CURRICULUM OVERVIEW

### Day 5: Social Entrepreneurship

Students learn about start-up companies that develop, fund, and implement solutions to social, cultural, or environmental issues. Mentors share the story of their social entrepreneurship journey and the ups and downs they faced to form a business for the greater social good and not just the pursuit of profits.

### Day 6: Elevator Pitch & Raising Funds

Students delve into the costs involved in a business and how it impacts the product/service price. They learn to calculate the total fund required for running the business and what funding sources are available. Students then move on to crafting an elevator pitch for their business plan.

HOW ?

# SHARK-TANK PITCH

## Day 7: Pitch Day

Students develop a product or service startup to gain investment funds in a final shark-tank style pitch event.

Entrepreneurs and industry experts act as moderators who guide student teams through the processes of developing, testing, adapting and improving the business concept.

HOW ?

# INTERNSHIP & CERTIFICATE

Internship opportunities will be extended to all the students within our partner firms and with most of the mentors teaching the program.

You will be provided with a certificate of participation by The Big Red Group. This certificate can be used for your college portfolio.

WHO ?

# IVY LEAGUE MENTORS

Our mentors come from top Ivy league colleges and run successful businesses. These experts serve as coaches and mentors guiding students through the processes of developing a business concept.

We have a consortium of entrepreneurs who share their personal experiences and discuss the ups and downs of starting a business. Students get a chance to interact with these leaders and learn from them first hand.

# PROJECTS GONE LIVE!

*Meet*

Kabir Pandey, an eighth-grader from The Shri Ram School, Mousari, and an alum of the Ivy Early Entrepreneur (Jan '22) program.

During his time as an Ivy Early Entrepreneur, he came across our mentor Ranganath Thota, Founder of the Crowdfunding platform - Fueladream. And that opportunity was all that Kabir needed.

In partnership with Delhi-based NGO Yatan, Kabir and his friends took it upon themselves to assist the victims of the cold in Delhi and Gurgaon, by crowdfunding a campaign on Fueladream to distribute high-quality blankets.

RAISED  
**INR 96,800**  
GOAL INR 33,000

DAYS LEFT **13**      FUNDERS **20**

293% FUNDED

The Campaign has been a resounding success, achieving 3x its target amount within two days!

# PROJECTS GONE LIVE!

## Saikiran Appalla

Meet the 16-year-old who is the Founder & CEO of S.C.O.P.E app.

A new-age holistic platform bringing aspiring entrepreneurs, venture capitalists and investors, and industry experts on a single platform. with more than 5000 downloads.

# STUDENT TESTIMONIALS

“

I study business as a subject in my school and it's my favorite subject as well. But my learning was greatly elevated and enhanced from this conference. In these 7 days, I've learned so much more than I did in my school classroom. The mentor lineups were amazing and really inspiring.

Hemil Ketan Patel  
Class 11,  
Heritage International Xperiential School

“

I would definitely recommend this workshop to other people. The most amazing thing is the personalisation. You get personal attention for each and every thing. And you can talk to anyone freely and there is no question you feel hesitant to ask. It's a nurturing and a growth-oriented environment.

Radha Kulkarni,  
Grade 10,  
Abhinava Vidyalaya English Medium School
