THE VFA Approach

Ideation

Ideation focuses on rapidly finding and vetting great ideas. You'll learn important concepts such as looking at ways your organization can be a disruptive player and ways to challenge existing orthodoxies.

Incubation

Incubation equips you with the tools for nurturing your corporate entrepreneurship, creating a learning plan, and initiating the prototyping phase.

Acceleration

Acceleration will provide you with a powerful tool kit for innovation proficiency. You'll start the program by identifying your entry strategy. Next, you'll learn how to make critical decisions on pricing, promotional budget, and relationships with ecosystem partners.

Learn more

Our Venture for Creation™ program provides participants with an intensive, "hands-on" course focusing on the creation, evaluation, development, and launch readiness of a new business or social venture.

Testimonials

Youngju (Julia) Paek, USA

I took the professor's class hoping to find a direction for a business I had been working on, and after learning about the process of creating a business plan deck, I prepared for launch. A couple of months after the classes ended, I was able to get funding from NSHSS.

Federico Ruiz, Mexico

I loved taking the entrepreneurship course. Not only is it fun, interactive, and interesting, and you get to meet people from around the world, but you learn a lot as well.

Isebrand Kaldewei, Germany

The aspect that we had to prepare our business for launch and that all of our research needed to be profound made the experience come alive. This sucked me in and motivated me to work on this project for hours.

Amira Chanana, England

I would recommend this course to someone who is planning to take up business. It is a professional course that teaches you a lot.
