Why Innovate NOW?

Pioneering Pedagogy:

Immerse in a well-rounded curriculum crafted by a former Columbia Business School faculty member, blending theory and practical application for a comprehensive understanding of entrepreneurship.

Cutting-Edge Curriculum Components:

Explore modern entrepreneurial trends like digital transformation, sustainability, and global market strategies in an adaptive curriculum.

Guest Insights from Industry Titans:

Enrich your learning experience with sessions from industry-leading guest speakers. Gain firsthand insights into the real-world challenges and triumphs of entrepreneurship.

Shark Tank-Style Showdown:

The course culminates in a creative, high-stakes pitch to eminent judges using interactive games, digital displays, or theatrical skits.

Venture Creation from Scratch:

Students form dynamic teams to create and refine startup business plans, applying their learning in a hands-on, challenging journey.

Idea Exploration:

Unleash creativity to dream up world-changing innovations.

Idea Development:

Transform concepts into projects with prototype building and planning.

Idea Momentum:

Enhance your project with marketing and networking strategies.

Hands-on Entrepreneurship:

Experience the full entrepreneurial journey from concept to launch.

Our Approach

“ It taught me a lot about how to present a business idea in teams. I absolutely loved this programme and it has made a positive effect in achieving my goals.

Business Instructor,
Columbia-Harlem Small Business
Development Center (Columbia
Business School)**

Idea Generation:

Under this module, students learn to stimulate their creativity, understand the process of coming up with new ideas, and learn how to get inspiration from what others are doing. Students are given tools and techniques to gain an innovative mindset.

Market Research:

The Mentor guides students through the process of market research for their idea: what's currently being used in the market, who the top competitors are, and what needs to be done to turn an idea into a reality. Students learn techniques to test, refine and select their idea.

Design Thinking:

Students learn the process of creative thinking, logical thinking, and experimentation. Mentors share strategies adopted by them for testing and prototyping in order to achieve the perfect product/service for the end-user.

THE CURRICULUM

Our **InnovateNOW**, inspired by prestigious business school curriculums, is designed specifically for **high school students**.

It focuses on essential modules that lay the foundation for **successful entrepreneurship**. We offer a rigorous and **challenging curriculum**, tailored to high potential high school students aspiring to become future business leaders.

This program was an amazing learning experience for me, I especially loved the interactions with our mentors and their insights of the entrepreneurial world.

Arunima Singh
Grade 12, Shiv Nadar School Gurgaon

Business Model:

Once the student has developed an idea of the product or service startup, they learn what a business blueprint is and how to draw one for their start-up. They delve into information like target markets, competition, anticipated expenses, pricing, and other aspects of a business canvas.

Social Entrepreneurship:

Students learn about start-up companies that develop, fund, and implement solutions to social, cultural, or environmental issues. The Mentor shares the story of his social entrepreneurship journey and the ups and downs he faced to form a business for the greater social good and not just the pursuit of profits.

Elevator Pitch & Raising Funds:

Students delve into the costs involved in a business and how it impacts the product/service price. They learn to calculate the total fund required for running the business and what funding sources are available. Students then move on to crafting an elevator pitch for their business plan.

Shark tank-style Final Pitch Day

Pitch Day & Graduation

On our grand finale, teams ascend to the entrepreneurial battleground for their momentous Shark Tank-style showdown. They will confront an assembly of business juggernauts, primed to dissect their entrepreneurial blueprints with a fine-tooth comb.

Our judges bring diverse expertise, offering targeted feedback to propel entrepreneurs forward.

Teams showcase their visions, under pressure, aiming to impress with innovation and strategic thinking.

The stakes are high as teams vie for validation. Judges deliver insightful feedback, highlighting strengths and weaknesses.

It's about learning and refining strategies in the competitive landscape of entrepreneurship.

We were actively encouraged to share our opinions which greatly helped develop our communication and collaborative skills.

- **Opportunity:** A unique platform to lead, innovate, and turn dreams into actionable realities.

The Pinnacle of InnovateNow:
**Your Startup
Challenge**

Student Journey

At just 16 years old, BRG Entrepreneur Appalla Saikaran was familiar with the difficulties of networking, He knew intimately how nerve-racking it could be to ask questions and find like-minded people willing to collaborate and invest in nascent ventures. To tackle this challenge, young Appalla decided to build his own app!

“At such a young age, Appalla Saikiran has been chosen as one of the top 11 successful teenage entrepreneurs in India by a renowned ed-tech firm known as The Big Red Group. In addition, he has won the Global Kids Achiever’s Award for designing the SCOPE App. He also created a place for himself at the Junio CEO program, certified by Brown University.”

-Financial Express.com

Scope App

The app to create a unified platform for all your business and entrepreneur needs

“My vision for the SCOPE App is extensive. I aim to make it one-stop-shop solutions that cater for the needs of all start-ups in the Indian market”

-Appalla Saikiran
