EDUCATION

BEYOND THE CLASSROOM.

Ana-Mara Leppink

Concentration : **Applied Math + Environmental Science & Public Policy**

Ana-Mara is a sophomore in Cabot House from Hamburg, Germany. She is pursuing a double concentration in Applied Math and Environmental Science & Public Policy.

At Harvard, she plays on the club field hockey team, is a policy analyst for the Clean Energy Group, and a member of the Urban Sustainability Lab. In her free time, she enjoys reading, going on walks by the Charles River, and spending time with friends.

She is passionate about education and leadership, and hopes to make a difference by helping younger students unlock their potential and achieve their goals.

Jessie Wang

Concentration : **Economics and Psychology**

Jessie Wang is a junior in Lowell House from Toronto, Canada. She is studying economics and psychology and has a passion for public service.

On campus, she is a part of Harvard's newspaper The Crimson, Women In Business, and worked for HSA. Be it through tutoring students or organizing community partnerships, she hopes to make a meaningful impact by empowering others.

Outside of the classroom, she enjoys going on walks, hanging out with friends, and trying new recipes!

Jessica Zhuo

Concentration : **Neuroscience**

Jessica is a sophomore in Cabot House from Queens, New York. She is concentrating in Neuroscience on the Honors Mind, Brain, & Behavior track and is also passionate about health and educational equity.

On campus, she serves as a chair for Harvard's Mission Brain, an intern at the Harvard Global Health Institute, and a fellow at the Health Disparities Think Tank.

She hopes to leverage social entrepreneurship to bridge gaps in health and educational equity. In her free time, she enjoys cafe-hopping and running her jewelry business!

BEYOND THE CLASSROOM.

Kassandra Rodriguez-Acosta

Concentration : **Computer Science and Philosophy**

Kassandra is a first-generation college student from Austin, Texas; her family immigrated from El Salvador and Mexico. She is now pursuing a joint concentration in computer science and philosophy and is participating in the Concurrent Master's Program for computer science.

Outside of her academics, she is a part of a multitude of cultural organizations, including her Vice Presidency in Harvard's Chapter of the Society of Professional Engineers, and Community Liaison role for Concilio Latino de Harvard.

She strongly believes in immigrant rights, and is an advocate for pursuing higher education. Kassandra hopes to inspire her students, in the same way that her mentor's guided her towards personal and academic growth.

In her spare time, she enjoys afternoon tea and reading books about everything, and anything.

Daniela Solis

Concentration : Government

Daniela is a junior from Costa Rica studying Government at Harvard College with a passion for entrepreneurship.

She is the Co-Director of Partnerships at Harvard Women in Entrepreneurship, where she secures sponsorships and leads collaborations with venture capital firms. Daniela is also an Inclusion Officer and writer at the Harvard International Review, focusing on Latin American policy issues.

She is developing an AI educational tool aimed at expanding educational access and fighting misinformation. Daniela's work includes policy research for an anti-human trafficking nonprofit, and she hopes to continue empowering young leaders through her initiatives.
