PROGRAM OVERVIEW

The **Business of Sports 101** is a 3-day immersive program designed to introduce students to the **dynamic world of the global sports industry**.

Delivered in partnership with **Deakin University**, the program will combine **classroom learning, elite facility exposure, and applied projects** to help students explore careers in sport while building real-world skills.

Students won't just learn about sports, they will experience how the industry operates across **management, science, media, and performance environments**, and how they can position themselves within it.

DAY 1 - FOUNDATIONS: UNDERSTANDING THE SPORT INDUSTRY

Classroom Learning

- Students will build a strong foundation in both the business and science of sport.

Key Learning Areas:

- Overview of the global sports industry ecosystem
- Introduction to sport management (marketing, operations, governance)
- Fundamentals of sport science (performance, nutrition, psychology)

DAY 1 - FOUNDATIONS: UNDERSTANDING THE SPORT INDUSTRY

Hands-On Activities:

- Career Mapping Exercise
- AI in Sport Marketing
- Athlete Testing Activity

Outcome:

- Students will develop a clear understanding of how the sports industry functions and where they fit within it.

DAY 2 - INDUSTRY IMMERSION AT AN ELITE SPORTS FACILITY

Padukone-Dravid Centre for Sports Excellence (CSE)

- This will be one of the most defining parts of the program.
- Students will experience the sports industry inside one of India's premier high-performance training environments, a facility used by elite athletes.

Key Learning Areas:

- Exclusive Facility Tour** - Understand how world-class sports infrastructure operates
- Live Industry Rotations across:**
 - Operations & Event Management
 - Performance & Sport Science
 - Commercial & Media
- Careers Panel with Industry Experts**

DAY 2 - INDUSTRY IMMERSION AT AN ELITE SPORTS FACILITY

Why This Matters:

- This won't be a simulation. Students will **observe and engage** with real systems, real professionals, and real environments, gaining insights far beyond a classroom setting.

Outcome:

- Students will gain **first-hand exposure** to how elite sports ecosystems function in the real world.

DAY 3 - APPLICATION & FUTURE PATHWAYS

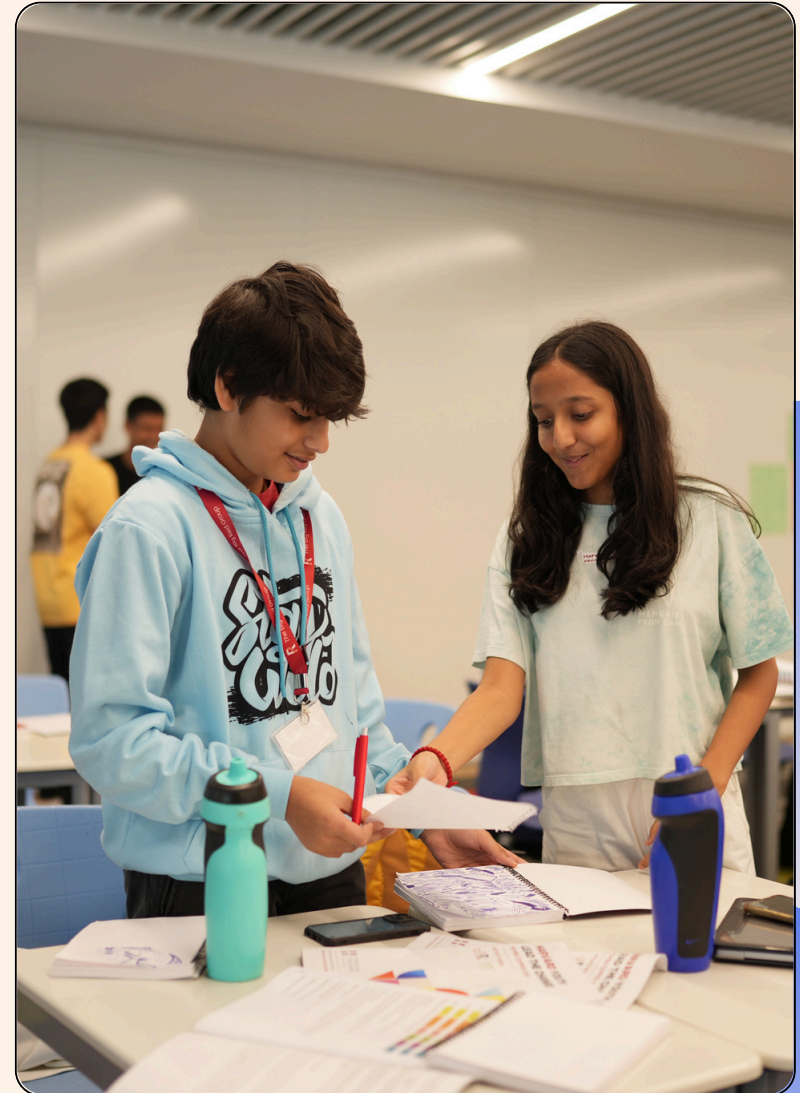

Classroom Learning

- Students will apply their learning through **projects, presentations, and future planning.**

Key Activities:

- Student Presentations - “Career I Discovered”
- Capstone Project:
 - Sports Event Pitch or
 - Athlete Performance Plan
- Group Presentations
- Pathways Session
- Personal Action Plan

DAY 3 - APPLICATION & FUTURE PATHWAYS

Outcome:

Students will leave with:

- A completed project
- Improved confidence in communication
- A clear roadmap for future exploration

PROGRAM OUTCOMES:

By the end of the program, students will:

- Gain clarity on **careers in the sports industry**
- Understand how **real-world sports organisations function**
- Build confidence in **presenting ideas and insights**
- Develop a **structured pathway for future exploration**
- Experience how learning connects to **real-world industries**
